

Chinese Turnip Super Longo 2000

Raphanus sativus L.

Selected in our tropical station, this variety has an exceptional ability for growing in hot conditions. Very early (45 days from sowing to harvest), this variety produces white cylindrical roots from 30 to 32 cm long.

Roots

- Long and straight
- Length: 30 to 32 cm
- Diameter: 4 to 5 cm
- Pearl white colour
- Firm white flesh

Plant

- Vigorous
- Erected foliage

Because of its resistance to heat, high temperatures do not impair the gustative qualities of Super Longo 2000.
